Developing Your School's Student Support Teams

A Practical Guide for K-12 Leaders, Student Services Personnel, and Mental Health Staff

Howard Blonsky, Steve Berta, James Wogan

The second edition is a practical manual for current and future practitioners working with schools to establish, facilitate, and sustain coordinated teams in support of students' social, emotional, and behavioral health. Students come to school each day with a range of issues that complicate their learning, engagement, and overall well-being. While school psychologists, counselors, social workers, and nurses are employed in many school districts, their schedules often make it difficult to collaborate effectively in developing and implementing comprehensive intervention plans. This book is filled with strategies designed to address these issues.
